The S758 is designed for severe off-road applications. With an extra-deep 32/32" tread depth and a rubber compound engineered to resist the most demanding environments, the S758 is ideal for construction, logging, and off-road environments. Stone ejectors resist the damages caused by stone retention, and an open shoulder with tapered sidewalls aid in lateral stability.

Features & Benefits

- Open grooves to maximize self-cleaning.
- Stone ejectors protect tire against stone drilling.
- M&S lug pattern designed specifically for on and off road applications.
- Extra deep tread (32/32").

Applications:

- Construction
- Logging
