The S815 is a mixed service tread featuring a chip-resistant compound ideally suited for off-road and construction applications. A zigzag tread pattern design reduces stone retention, while maximizing traction under all applications. Sidewall protectors are engineered to provide an enhanced level of protection to the casing.

Features & Benefits

- Large deep shoulder grooves for improved traction and heat dissipation.
- Interlocking lugs promote improved stability and smoother wear.
- Wide footprint and unique shoulder design for improved stability.
- Specially formulated compound and deep tread depth for improved tread life.
- Stone ejectors protect tire from stone drilling.

Applications:

- Dump Trucks
- Mix Concrete Trucks
- Tractor Trailers
- Regional Trucks
